

# Sprint Comparison and Sprint 3 Details

## Sprint Comparison: Task Amount Changes

### Sprint 1 Overview:

- Focused on foundational features like quiz creation, frontend integration, and basic user interaction.
- Number of tasks: 15.
- Goals:
  1. Establish the groundwork for the platform.
  2. Focus on functionality and user interface consistency.

### Sprint 2 Overview:

- Expanded on Sprint 1's foundation by introducing advanced features like automatic grading and time management.
- Number of tasks: 9.
- Goals:
  1. Enhance usability for both teachers and students.
  2. Add flexibility and time management features.

### Sprint 3 Overview:

- Focused on advanced user engagement features like certificates, bookmarks, and difficulty settings.
- Number of tasks: 10.

- Goals:

1. Enhance user customization and interactivity.
2. Implement features that reward and retain users.

## **Sprint 3 Tickets and Tasks:**

Ticket 1: Certificate of Completion

- Task 1.1: Create a static certificate template using HTML/CSS.
- Task 1.2: Enable certificate display after quiz submission.
- Task 1.3: Implement a certificate generator to replace placeholders with quiz data.

Ticket 2: Set Difficulty Levels

- Task 2.1: Add difficulty levels in the quiz creation form.
- Task 2.2: Save the difficulty level in the backend.
- Task 2.3: Display difficulty on the quiz flashcards page.

Ticket 3: Bookmark Favorite Quizzes

- Task 3.1: Add a 'Bookmark' button on the Quiz History page.
- Task 3.2: Save bookmarks to local storage.
- Task 3.3: Display bookmarked quizzes in a 'Favorites' section.
- Task 3.4: Implement functionality to unbookmark quizzes.
